## Timings

So, finally the time has come to plan your big day but you've just realised that you have no idea where to begin!

Don't panic...we have a short list to help you out as well as a detailed plan to keep your budget in line.

### **12 months to go**

- Take the plunge and set the date as you then need to work out all the fiddly bits, like where to have the ceremony and reception; who to invite; and more importantly, how much money to spend!
- Don't forget to check out the legal requirements, especially necessary for non UK citizens.

### **8 - 3 months to go**

- Decide on your wedding stationery design. A special note here would be to remember to print the Thank You cards with your new titles, Mr and Mrs ....
- Once all the big decisions have been made, decide who should be taking your photos, doing your flowers, making the cake, and don't forget to arrange your transport to the wedding venue!
- Be sure to set apart plenty of time to pick out your wedding rings and choose your wedding attire. Ladies, don't forget to add the hairdresser and make-up artist in this list.

### **Last 3 months**

- Finalise your honeymoon booking, if you haven't done so already!
- Confirm the final numbers with the venue, prepare the formidable speech, draw up the table plans and arrange the dress rehearsal!

### **On the day**

- Finally, relax and enjoy the day you have just spent a year organising!
